GENERAL INDEX

TO THE

FIRST TWENTY-FOUR VOLUMES

OF

THE JOURNAL

OF

MENTAL SCIENCE,

Index
Vol 1-24

BY

G. FIELDING BLANDFORD, M.D.,

Late President of the Medico-Psychological Association;

WITH HISTORICAL SKETCH

BY

D. HACK TUKE, M.D.,

Co-Editor of the Journal.

HISTORICAL SKETCH

OF

THE ASSOCIATION.

In connection with this Index to the Journal of the "Association of Medical Officers of Hospitals for the Insane," as it was in the first instance called, it seems but natural to recur to the origin and trace the course of the now prosperous and powerful "Medico-Psychological Association." I have, therefore, willingly acceded to Dr. Blandford's request to write a brief sketch of its past history.

It originated in a circular addressed to all the medical men known at that time to be connected with the public Lunatic Asylums of the Kingdom. This circular, dated June 19, 1841, stated that as it had long been felt desirable that medical men connected with lunatic asylums should be better known to each other—should communicate more freely the results of their individual experience—should co-operate in collecting statistical information relating to insanity, and above all, should assist each other in improving the treatment of the insane—several gentlemen who have the conduct of lunatic asylums have determined on making an attempt to form "an Association of the Medical Officers of Lunatic Asylums."

The circular requested an opinion on the proposed Association, and enquired whether co-operation might be expected. It

was signed by Dr. Samuel Hitch, the Resident Physician of the Gloucester County Asylum. This proposal was sent to 83 medical men, and in reply 44 consented to belong to the Association. A meeting of those desirous of assisting in its formation took place at the Gloucester Asylum, July 27, 1841. At this, the first meeting, there were present in addition to Dr. Hitch, Dr. Shute (in the chair), Mr. Gaskell, of the Lancaster Asylum, Dr. Powell, of the Nottingham Asylum, Dr. Thurnam, of the York Retreat, and Dr. Wintle, of the Oxford Asylum. An Association to be composed of medical men connected with the treatment of the insane was instituted, and it was decided to meet annually, at a Public or Private Lunatic Asylum, and to have for its object the intercommunication of all matters calculated to improve the treatment, care, and recovery of the insane.

The following are the principal resolutions which were passed:—

1. That this meeting considers itself competent to establish the Association proposed in the circular.

2. That an Association be formed of the Medical Officers attached to "Hospitals for the Insane," whose object shall be improvement in the management of such institutions and the treatment of the insane; and the acquirement of a more extensive and more correct knowledge of insanity.

3. That by the members of this Association the terms "lunatic" and "lunatic asylum" be abandoned except for legal purposes, and that the terms "insane person" and "hospital for the insane" be substituted.

4. That to effect the great objects of this Association, visits be made annually to some one or more of the Hospitals for the Insane in the United Kingdom.

5. That at its meetings the Association ascertain and record, as far as possible, the medical and moral treatment adopted in each Hospital.

6. That at the meetings, papers and essays be read, subjects of interest to the insane and to the Association be discussed, and information communicated, and that a copy or minutes of these be preserved in the journal of the Association (*i.e.* a manuscript minute-book).

7. That the first annual meeting be held at Nottingham.

The Committee of the Gloucester County Asylum warmly supported the movement. Dr. Hitch was appointed the Honorary Secretary, and Dr. Shute, his colleague at

Gloucester, the Treasurer. Two days were spent in presiding over the birth of the infant society—

> "The baby figure of the giant mass
> Of things to come."

In November of the same year, the Association met, as decided upon, at the Nottingham Asylum, under the presidency of Dr. Blake, of Nottingham.

At this meeting, rules were drawn up, and some resolutions passed, among which one deserves to be recorded here, namely, "That without pledging themselves to the opinion that Mechanical Restraint may not be found occasionally useful in the management of the insane, the members now present have the greatest satisfaction in recording their approbation of and in proposing a vote of thanks to those gentlemen who are now engaged in endeavouring to abolish its use *in all cases.*"

In the following year (June 2, 1842), the Association met at Lancaster, Dr. De Vitré presiding. He was at that time physician to the Lancashire County Asylum, the superintendent being Mr. Gaskell, who was a very warm promoter of the Association. The third annual meeting was held at Morley's Hotel, London, under the presidency of Dr. Conolly, the members present numbering eight, namely—the President, Dr. Sutherland, Dr. De Vitré, Mr. Gaskell, Dr. Stewart, Mr. Poynder, Dr. Pritchard (Northampton), and Dr. Hitch.

On this occasion, it was resolved to visit the Hanwell Asylum, St. Luke's, and the Surrey Asylum, and three days were spent in visiting these institutions, and in reading and discussing papers—an example worthy of imitation.

In 1844, the Association met at the York Retreat, Dr. Thurnam being the President. The following members were present—Mr. Tuke, of York; Dr. Formby, of Liverpool; Dr. Prichard, of Bristol; Dr. Wintle, of Oxford; and Dr. Stewart, of Belfast, with five visitors, viz., Dr. Hodgkin, London; Dr. Fowler, Salisbury; Mr. Caleb Williams, Visiting Surgeon to the Retreat; and Mr. Alderson, of the York Asylum.

The York meeting remains memorable in consequence of a communication received from the Editor of the "German Journal of Insanity," Dr. Damerow, of Halle, expressing the hope on behalf of the Association in Germany that their English

confrères "would follow the example of the former by publishing a Periodical devoted to the same important subject, by which means a mutual exchange of Publications might take place, which would be highly beneficial to both nations." This proposal was thereupon discussed by the meeting, and a resolution adopted declaring it to be "deserving of the best consideration of this Association."

This resolution was never lost sight of, and was frequently discussed among the members, although the Association did not see its way to carry it out for some years. At the Annual Meeting, held at Oxford (Dr. Wintle in the chair), July 20, 1852, "Mr. Ley ably advocated the establishment of a journal for the use of the Members of the Association, and submitted to the meeting several propositions connected therewith, which will appear in the first number of the Journal. Dr. Bucknill addressed the meeting at considerable length on behalf of Mr. Ley's propositions, in which he was supported by Dr. Conolly, who spoke of the treasures hidden in asylum case-books, which would become known by the establishment of a Journal. An interesting discussion ensued, and it was finally resolved, on the motion of Mr. Ley, seconded by Dr. Thurnam, that the Journal be undertaken." (Extract from Minute-book.)

It was also decided to elect Dr. Bucknill the Editor. The wisdom of the choice was evidenced by the manner in which from 1853 until 1862, the editorial pen was wielded. The Journal became not only a literary success, but the fears entertained by some members of the Association that the funds would not be forthcoming, happily proved groundless, the worthy Treasurer, Mr. Ley, being soon able "to congratulate himself on being prepared to meet any claims on the Association."

It may not be without profit as well as interest to recall what, as stated in the Prospectus, were the objects of the "Asylum Journal of Mental Science" (or, as the late Dr. Thurnam preferred calling it, of "Insanity") when the first number was issued, November 15, 1853:—

"The aim and objects of the 'Asylum Journal' will be to afford a medium of intercommunication between men engaged in the construction and management of asylums, in the treatment of the insane, and in all subsidiary operations; it will therefore embrace topics, not only interesting to medical men, but to visiting justices, asylum architects, and chaplains;

nothing will be excluded which is not foreign to the modern system of the care and treatment of the insane. It will be a record of improvements and experiments in psychotherapeutics; whether in medicine, hygiene, diet, employment and recreation; or in the construction, fittings, organisation and management of asylums. It will notice new opinions in the physiology of the nervous system and the neurological observations and discoveries of every kind. . . . An object of the Journal of much utility, though of minor importance to those above stated, will be that of making known throughout all asylums the want of any one of them; of supplying a medium for asylum advertisements."

We observe that at the Annual Meeting, held in London in 1855, Dr. Sutherland moved, and Mr. Ley seconded, a resolution "that the 'Asylum Journal' be published quarterly instead of every six weeks, with an amended type and external cover." After a considerable discussion and the proposal of several amendments, this resolution was carried.

It may here be stated that it was agreed to change the name of the Journal from its original title, "The Asylum Journal of Mental Science," to that which it at present bears, at the Annual Meeting in 1858.

If it be asked what literary work the Journal has accomplished, we may content ourselves with pointing to the present volume. *Si monumentum quæris, circumspice.*

The change in the title of the Association was made in 1865, when the revised Rules which have been in force up to the present time were adopted. The original title has already been given; but subsequently and up to 1865, the words "Asylums and" were introduced before those of "Hospitals for the Insane."

Looking back over the now nearly 40 years that the Association has been established, no one, we think, will be disposed to doubt that its career has fully justified its foundation, and that through its periodical meetings, as well as through its Journal, it has contributed to achieve the objects for which it was originally declared to be instituted, viz., that alienists should be better known to each other, that they should communicate more freely the results of their individual experience, should co-operate in collecting statistical information relating to insanity, and, above all, should assist each other in improving the treatment of the insane.

Lunacy legislation has been carefully watched by the

Association, and the weight of its influence given to measures calculated to advance the true interests of the insane, while modifications have been urged when, in the opinion of the Association, these interests were endangered by measures contemplated by the Legislature.

Of the financial success of the Association, the best proof is to be found in the fact that the last annual statement of the Treasurer exhibits a balance in its favour of £480—the number of members being now 390. Success has marked the past history of the Medico-Psychological Association and its attempts at articulate expression through its Journal. In the past, and in the present, we read the promise of the future. It will be the duty of the historian of the Association in years to come to record whether this promise has been fulfilled.

It must, in conclusion, be stated that this Index originated with, and has been prepared by Dr. Blandford, who, when President of the Association in 1877, offered to mark his year of office by undertaking the work for the Association. The Annual Meeting, it need scarcely be said, gratefully accepted Dr. Blandford's proposal.

D. HACK TUKE.

NOTE.—As the numbers of pages 1-297 in vol. vii. occur twice, those in the second portion (Nos. 37 and 38) are marked by an asterisk (*).

APPENDIX

COMPRISING

HISTORICAL SKETCH OF THE JOURNAL AND DESCRIPTION OF ILLUSTRATIONS.

VOLS. I. TO XXIV.

NOTE.—*The following Historical Sketch of the* JOURNAL *will, it is hoped, be regarded as a fitting sequel to that of the Association which accompanied Dr. Blandford's* INDEX, *and prove not only interesting but practically useful. The pagination is continuous with that of the Historical Sketch of the Association, and can be easily placed in position in the Volume issued last year.*

D. H. T.

DATES AND NUMBERS.

The first number of the first volume of the JOURNAL is dated the 15th of November, 1853, and the last number in Volume XXIV. is dated January, 1879. The twenty-four volumes for which the GENERAL INDEX is made, comprise 108 numbers, and extend over a period of twenty-six years and two months.

TITLES.

Volumes I. to IV., containing Nos. 1 to 26, being dated from the 15th of November, 1853, to July, 1858, have the title "*Asylum Journal of Mental Science;*" and Vols. V. to XXIV., containing Nos. 27 to 108, dating from October, 1858, to January, 1879, have the title "*Journal of Mental Science.*"

PLACES OF PUBLICATION.

No. 16, being the second number in Volume II. was published in Exeter by POLLARD, by whom it and other numbers were printed. All the other numbers were published in London: Nos. 1 to 15 by HIGHLEY; Nos. 17 to 36 by LONGMAN & Co.; Nos. 37 to 108 (or NEW SERIES Nos. 1 to 72) by CHURCHILL.

IRREGULARITIES.

The first volume is remarkable on account of the fact that it contains Nos. 1 to 14, being dated from the 15th of November, 1853, to the 2nd of July, 1855, that each number was issued at *six weeks' interval*, that it is in royal 8vo. size, that it is printed in double columns, and that it was published at sixpence each number. Nos. 15 to 64 were published at 2s. 6d., and Nos. 65 to 108 at 3s. 6d. each. No. 15 and all numbers afterwards were issued quarterly, and in 8vo. The first volume, as previously stated, contains fourteen numbers, and volume VII. contains six numbers, being Nos. 35 to 40 (or Nos. 35 and 36, and NEW SERIES, Nos. 1 to 4 which are separately paged).

It may be here remarked that, with but slight exceptions in the Indexes in Volumes VII. and VIII., the NEW SERIES numerals are virtually ignored by the fact that the volumes are consecutively numbered I. to XXIV. With the exceptions of volumes I. and VII., all the volumes contain four numbers in each volume.

The first number in Volume I. is dated 15th November, 1853. The first number in Volumes II. to VII. is dated October. The first number in Vols. VIII. to XXIV. is dated April.

There are no pages 303 and 304 (one leaf) in No. 38 (or NEW SERIES, No. 2) in Volume VII. 1861; the matter, however reads correctly.

The Lists of Officers and Members of the Association issued in the JOURNAL are mostly separately paged, and may or may not be bound up in the volumes, but as those issued in the following numbers are consecutively paged with the matter contained in the volumes the pagination would appear incomplete if the lists are not bound up in the volumes.

No. 44, January, 1863, page 623 to 634, before Index in Vol. VIII.
No. 47, October, 1863, page 453 to 466, in middle of the text in Vol. IX.
No. 54, July, 1865, page 299 to 306, in middle of the text in Vol. XI.
No. 55, October, 1865, page 456 to 464, in middle of the text in Vol. XI.
No. 58, July, 1866, page 299 to 308, in middle of the text in Vol. XII.
No. 59, October, 1866, page 457 to 466, in middle of the text in Vol. XII.

The Index to Volume I. is unpaged, and may be placed at the beginning or end of the volume. The Indexes for Volumes II. to V., are paged in Roman numerals, to be placed after the title-page. The Indexes for Volumes VI. and VII. are unpaged, and may be placed at the beginning or end of the volumes. Volume VII. contains two Indexes, as it contains two paginations.

The Index for Volume VIII. and all volumes afterwards are consecutively paged in Arabic numerals to be placed at the end of the volumes.

As there are no lists of *Contents* issued for the volumes, it is desirable to bind up the Lists of *Contents* issued in each number. The Index for Volume VII., issued in No. 40 (or N. S., No. 4), January, 1862, which completes the volume, does not record the matter contained in the number in the Index for the volume, but it is made for three numbers only, *i.e.*, Nos. 1 to 3 NEW SERIES, or consecutive Nos. 37, 38, 39. In Volume VII., therefore, the List of *Contents* issued in No. 40, should be placed with the Index. The Index for Volume VIII., issued in No. 45, April, 1863, includes a record of the matter contained in No. 40, or NEW SERIES, No. 4, which should have been in the Index to Volume VII.

On the Title-page for Volume XIX., issued in No. 89, April, 1874, erroneously occurs "JOHN SIBBALD, M.D.," who had been, though he was not then, the joint-editor; and, consequently, a corrected Title-page was issued in No. 90, 1874. (*See unpaged Matter, &c., at page* xvi.).

INDEXES.

The Indexes in Vols. IX. to XIII. (1864 to 1868) were compiled by WILLIAM DEAN FAIRLESS, M.D., of Kirklands, Scotland; and those in Vols. XV. to XXIV. (1870 to 1879) were compiled by ALFRED H. NEWTH, M.D., of Haywards Heath, Sussex. The preparation of these Indexes was a labour of love. It is not stated by whom the Indexes, not noted, were made.

EDITORS.

Nos. 1 to 45, from 15 November, 1853 to July, 1863, were edited by J. C. BUCKNILL, M.D.

Nos. 43 to 72, from October, 1863, to January, 1870, were edited jointly by C. L. ROBERTSON, M.B. and M.D., and H. MAUDSLEY, M.D.

Nos. 73 and 74, April and July, 1870, were edited solely by H. MAUDSLEY, M.D.

Nos. 75 to 82, from October, 1870, to July, 1872, were edited jointly by H. MAUDSLEY, M.D., and J. SIBBALD, M.D.

Nos. 83 to 106, from October, 1872, to July, 1878, were edited jointly by H. MAUDSLEY, M.D., and T. S. CLOUSTON, M.D.

Nos. 107 and 108, October, 1878, and January, 1879, were edited jointly by T. S. CLOUSTON, M.D., D. HACK TUKE, M.D., and G. H. SAVAGE, M.D., who continue to be the Editors.

Thus, seven Editors have been engaged in conducting the JOURNAL from its commencement in 1853 to 1879.

DESCRIPTION OF THE ILLUSTRATIONS AND OTHER MATTER, either unpaged, or not included in the pagination of Volumes I. to XXIV.

BIOGRAPHICAL PORTRAIT.

No. of Journal.		Vol.	Page
24.	An 8vo. page LITHOGRAPH PLATE, subject unlettered, being a Portrait of SAMUEL TUKE, of York, accompanying the paged "*Obituary*."	IV.	165

PORTRAITS OF INSANE AND IDIOTS, ETC.

46.	Seven small WOOD-ENGRAVINGS, subjects being the human head, pourtraying—*The standard Ideal and Mental Defects*, printed with the text in the article—"*On the Classification of Mental Diseases and Defects*"—by THOMAS LAYCOCK, M.D.	IX.	161 163
15.	An 8vo. page LITHOGRAPH PLATE, subject unlettered, being a portrait of E. LANCY—an ill-used lunatic—representing him on a bed, with his legs and thighs closely folded over his body. Description is in the article—"REGINA *versus* HUXTABLE."	II.	120
43.	An 8vo. page LITHOGRAPH PLATE, from a photograph, subject lettered, being "*Portraits of Seven Idiotic Brothers and Sisters*," in one group, and who were born in Scotland. Description is in the article, "*Group of Seven Idiots, brothers and sisters*," by Dr. W. A. F. BROWNE. ...	VIII.	429
91.	An 8vo. page LITHOGRAPH PLATE, subject lettered, being a "*Portrait of the Hermit*"—*i.e.*, JAMES LUCAS, seated in his hermitage, near Hitchin, Hertfordshire, accompanying the biography of "*The Hermit of Red-coats Green*," by DANIEL HACK TUKE, M.D.	XX.	361
94.	An 8vo. page LITHOGRAPH PLATE, printed on both sides, subject unlettered, containing— "Fig. 1, 2," being two facsimile sketches made by an Artist. "Fig. 3, 6," being two facsimiles of the Artist's handwriting. "Fig. 4, 5," being two facsimiles of a young lady's handwriting. Description is in the article, "*On some Organic Laws of Memory*," by T. LAYCOCK, M.D.	XXI.	165 166
94.	An 8vo. page "HELIOTYPE" PLATE, containing ten physiognomical portraits, from photographs, subject lettered, being "*Types of weak-minded Criminals*." Description is in the article on "*The Morbid Psychology of Criminals*," by DAVID NICOLSON, M.B.	XXI.	250
98.	An 8vo page LITHOGRAPH PORTRAIT, from a photograph, of a boy, subject lettered being, "*Kalmuc Idiot*." ...	XXII.	169
98.	An 8vo. page LITHOGRAPH PLATE, containing three figures, subject lettered being, "*Skull, Cast* [of head], *and foot of E. M., a Kalmuc Idiot*," aged 40 years.	XXII.	172
98.	An 8vo. page LITHOGRAPH PLATE, subject lettered being "*Brain of E. M., a Kalmuc Idiot*," aged 40 years. .. Description of the three plates before described is in the article on, "*Kalmuc Idiocy*," by JOHN FRASER, M.B., and Dr. ARTHUR MITCHELL.	XXII.	173

No. of Journal.		Vol.	Page.
98.	An 8vo. page LITHOGRAPH PLATE, containing two figures, subject unlettered. One being a Portrait of M. H., a *Sporadic Cretin* girl, aged 15 years, represented in a chair, from a photograph, the other figure being a pathological representation of her "*trachea*," from a drawing. Description is in the article on "*Sporadic Cretinism*," by FLETCHER BEACH, M.B.	XXII.	265
101.	An 8vo. LITHOGRAPH PLATE, containing two portraits of women, from photographs, subject lettered being "*Bearded Women.*" Description is in article on "*Two Cases of Bearded Women*," by T. W. MCDOWALL, M.D. ...	XXIII	86

PATHOLOGICAL SUBJECTS.—*MICROSCOPIC ILLUSTRATIONS.*

48.	Eight WOOD ENGRAVINGS, printed with the text, lettered, being microscopic representations of abnormal cerebral vessels in General Paresis	X.	486 487 491
	Description is in the article on "*The Pathology of General Paresis*," by W. H. O. SANKEY, M.D.		467
76.	An 8vo. page LITHOGRAPH PLATE, containing two figures, subject unlettered, being microscopic representations of *Miliary Spots of Degeneration* or *Sclerosis*, accompanied with an 8vo. type printed page, "*Explanation of Lithograph Illustrations*," unpaged. Further description is in the article on the "*Microscopical Anatomy of the Brain and Spinal Cord in a case of Imbecility*," by W. B. KESTEVEN, F.R.C.S.	XVI.	565
91.	An 8vo. page CHROMO-LITHOGRAPH PLATE, unlettered, containing five figures, being microscopic representations of sections from the (Fig. 1) *Left Corpus Striatum;* (Fig. 2) *Right Ascending Parietal Convolution;* (Fig. 5) *Pons Varolii*, showing vascular, thickening, dilatation, and deposits. "*Description of Plate*," in the article on "*Remarks on a case of Syphilitic Insanity*," by J. BATTY TUKE, M.D. ...	XX.	361
92.	An 8vo. page LITHOGRAPH PLATE, subject lettered "*Miliary Aneurisms in the Pia Mater*," being microscopic representations. Description is in the article on a "*Case of Senile Dementia*," by JAMES C. HOWDEN, M.D.	XX.	588
94.	An 8vo. page CHROMO-LITHOGRAPH PLATE, subject unlettered, containing four figures, being microscopic representations. "Fig. 1."—Transverse section of vessel from the Pons Varolii, with deposits. "Fig. 2."—Longitudinal section of ditto. "Fig. 3."—Transverse section of the Spinal Cord—dorsal region, showing increase of fibrous tissue. "Fig. 4."—Section—Frontal Convolution—showing degeneration of the Cells. "*Description of Plate*" is in the article on "*Two Cases of Apoplexy of the Pons Varolii*," by JOSEPH J. BROWN, M.B.	XXI.	276
99.	An 8vo. page LITHOGRAPH PLATE containing two figures, subject unlettered, being microscopic representations of sections. "Fig. 1."—Nerve Cells undergoing "Pigmentary Degeneration." "Fig. 2."—"Minute Aneurismal Formations in Corpus Callosum."		

No. of Journal.		Vol.	Page.
	"*Explanation of Plate*" is in the article on a "*Case of Sudden and Complete Aphasia,*" &c., by RINGROSE ATKINS, M.D.	XXII.	416
101.	An 8vo. page LITHOGRAPH PLATE, subject unlettered, containing two microscopic figures. "Fig. 1."—Being a "Transverse section of the internal Carotid Artery"—*Chromo* "Fig. 2."—The basilar and posterior Cerebral Arteries, showing "Aneurisms."		
	"*Explanation of Illustrations*" is in the article on "*Vascular Lesions with Insanity,*" by G. HUNTER MACKENZIE, M.B.	XXIII.	85
102.	An 8vo. page CHROMO-LITHOGRAPH PLATE, containing three microscopic figures. "Fig. 1."—Being a "Transverse section of a vessel from grey matter of a Convolution, showing Hypertrophy." "Fig. 2."—Being a section of grey matter of Convolution, showing "Aneurism" "Fig. 3."—Being a section of Softened Spot of a Convolution, showing remains of "Apoplexies, &c."		
	"*Explanation of Plate*" is in the article on "Transient Alternating Hemiplegia," by JOSEPH J. BROWN, M.B. ...	XXIII.	222
106.	An 8vo. page LITHOGRAPH PLATE, containing two figures, being microscopic representations of sections, subjects lettered "Fig. 1."—Being "Lateral Columns of Cord," showing (A) Cells, (B) Amyloid Bodies. "Fig. 2."—Being "Morbid Changes . . . in Spinal Cord"—(A) Posterior Median Fissure, (B) Columns of Goll.		
	Further "*Explanation of Plate,*" and description is in the article on "*Two Cases of Locomotor Ataxia,*" by J. W. PLAXTON, M.R.C.S., and W. BEVAN LEWIS, L.R.C.P....	XXIV.	278

PATHOLOGICAL SUBJECTS.—*VARIOUS ILLUSTRATIONS.*

52.	An 8vo. page LITHOGRAPH PLATE, subject unlettered, being representations of Blood-Cysts in the Arachnoid Cavity. The initials on the plate are not referred to in the general description in the article on "*Blood-Cysts situated within the Arachnoid Cavity in Cases of General Paralysis of the Insane,*' by JOHN W. OGLE, M.D. *** The plate was issued in No. 53, April 1865, and not with the article	X.	530
64.	An 8vo. page LITHOGRAPH PLATE, subject lettered, "*Engraving of the Convex surface of the Left Hemisphere,*" from a cast by Prof. BROCA, with lettered references. Further description is in the article "*On Aphasia, or Loss of Speech in Cerebral Diseases,*" by FREDERIC BATEMAN, M.D. The *Plate* was issued with the continuation of the Article in No. 71, October 1869, Vol. XV., page 393	XIII.	522
72.	An 8vo. page LITHOGRAPH PLATE, subject unlettered, being representations of *Groups of Cavities*, chiefly in the *Vertex* of the *Cerebral Hemispheres*—natural size. Description is in the article, "*A case of General Paralysis,*" by J. LOCKHART CLARKE, M.D.	XV.	500
81.	An 8vo. page LITHOGRAPH PLATE from a photograph. Subject lettered is "*Brain Lesion involving* BROCA'S *Convolution. No Aphasia.*" Description is in the article on a "*Case with a Lesion involving Broca's Convolution,*" &c., by J. BATTY TUKE, M.D., and JOHN FRASER, M.D.	XVIII.	49

No. of Journal.		Vol.	Page.
104.	Two 8vo. page LITHOGRAPH PLATES, containing four representations, subjects lettered. "PLATE 1."—Being "Two Sections of the Brain." "PLATE 2."—Being "Handwriting before and after attack." Description is in article on "*Apoplexy, Aphasia, and Mental Weakness,*" by G. H. SAVAGE, M.D. ...	XXIII.	528, 529
107.	An 8vo. page LITHOGRAPH PLATE, containing two figures, subject unlettered. "Fig. 1."—Being a view of the Microcephalic Brain of a Girl 15 years of age, *actual size.* "Fig. 2."—A Semi-diagramatic view, showing Convolutions. Description is in the article on "*A case of Microcephalic Imbecility,*" by G. E. SHUTTLEWORTH, M.D.	XXIV.	443

NORMAL COMPARATIVE ANATOMY.—*MICROSCOPIC REPRESENTATIONS.*

96.	Two 8vo. page LITHOGRAPH PLATES, containing Microscopic figures, subject unlettered. "Figs. 1 to 10," Being the Six layers of the Cortex of Brain of BABOON. "Fig. 11," Being Cells of Cornu Ammonis of MAN. "*Explanation of Plates*" is in the article "*On the Brain of the Chacma Baboon,*" by HERBERT C. MAJOR, M.D....	XXI.	512

PLANS OF ASYLUMS, &c.—*FOREIGN.*

24.	An 8vo. page LITHOGRAPH PLAN, subject lettered, "*Ground Plan of the Asylum on the Isola di S. Servolo, Venice.*" Description is in the article, "*An account of a Visit to the Asylum for the Insane, on the Isola di S. Servolo, Venice,*" by C. LOCKHART ROBERTSON, F.R.C.P.	IV.	244
49.	Thirteen small WOOD ENGRAVINGS, interspersed with the text in the article (*after noted*), being plans (*Figs.* 3, 10, 12) of buildings, (*Fig.* 4) grounds, (*Figs.* 1, 2, 11) bedstead pieces, (*Figs.* 5, 6, 7, 8, 9, 13) various pieces of apparatus	X.	3 to 17
49.	An 8vo. page LITHOGRAPH PLATE, containing two figures, subject unlettered, marked "PLATE 1," *Fig.* 1, 2, being two views of GUGGENBUHL'S *Institution—an Alpine Retreat for Infant Cretins.* Description is in the article on "*Stray Notes on Foreign Asylums, &c.*" by W. CARMICHAEL MCINTOSH, M.D. (*See the* JOURNAL, *Vol. III., page* 409.)...	X.	15, 16, 17
70.	A folio page WOOD ENGRAVING, subject lettered, being "*Ground Plan of Friedrichsberg Lunatic Asylum.*" Folded, size 8½in. × 12in. "*Index to the Ground Plan*" is in the article on "*A Visit to the Friedrichsberg Asylum,*' by F. OPPERT, M.D.	XV.	216

PLANS OF ASYLUMS, &c.—*ENGLISH.*

5.	A royal 8vo. page LITHOGRAPH PLATE, subject lettered being "*Lincolnshire County Asylum,*" containing "*Block Plan*" and "*Ground Plan*" and "Reference." Description is in the article on the "*Description of the Lincolnshire County Asylum,*" by EDWARD PALMER, M.D.	I.	73

No. of Journal.		Vol.	Page.
6.	A royal 8vo. page LITHOGRAPH PLATE, subject lettered being "*Institution for the Insane, Coton Hill, Stafford.*" The plate is a general view of the building. Description is in the article on "*The New Asylum for Middle Classes at Coton Hill, near Stafford.*" ANONYMOUS	I.	88
24.	An 8vo. page LITHOGRAPH PLATE, subject lettered, "*Plan of one wing of an Asylum for* 220 *Insane Patients.*" "Fig. 1."—Ground Floor. "Fig. 2."—First Floor. Description is in the article "*On the Construction of Public Lunatic Asylums,*" by J. T. ARLIDGE, M.B. ...	IV.	194
25.	An 8vo. page LITHOGRAPH PLATE, subject unlettered, being "*Ground Floor,*" "*Upper Floor,*" and "*Elevation*" of the *New House at the Devon County Lunatic Asylum.* Description is in the article, "*Devon County Lunatic Asylum,*" by J. C. B[UCKNILL]	IV.	317
33.	An 8vo. page LITHOGRAPH PLATE, subject lettered, "*Sussex County Lunatic Asylum,*" "*General Ground Plan.*" "Index" to, and description of, are in the article, "*The Sussex Lunatic Asylum, Haywards Heath,*" by C. LOCKHART ROBERTSON, M.B.	VI.	283
40.	An 8vo. page LITHOGRAPH PLATE, subject lettered, "*Plan of a Proposed County Lunatic Asylum for* 650 *Patients,*" "No. 1.—*Ground Plan.*" "Nos. 2, 3, *Plans of Blocks.*" Description is in the article, "*Description of a Proposed New Lunatic Asylum for* 650 *Patients on the Separate Block System for the County of Surrey.*" Author not stated ...	VII.	602
	This article should be added to the "General Index to the first Twenty-four Volumes."		
51.	Two folio page LITHOGRAPH PLATES, *folded,* containing many figures, subject lettered being "*Design for a Public Lunatic Asylum for* 525 *Patients on the Cottage Plan upon* 100 *Acres of Land.*" "PLAN I.—General Plan." "PLAN II.—Detail of Buildings." Size of each is 11½in. × 17½in. References are on the Plans, and description is in the article, "*Suggestions for a Cottage Asylum,*" by E. TOLLER, M.R.C.S.	X.	342
60.	A folio page LITHOGRAPH PLATE, folded, containing many figures, subject lettered being "*Pavilion Asylum for* 250 *Patients,*" &c., "*Ground*" and "*First Floor*" Plans, with "*Extensions.*" Size 17½in. × 23in. Description is in the article on "*Pavilion Asylums,*" by C. LOCKHART ROBERTSON, M.D.	XII.	467
13.	A royal 8vo. page LITHOGRAPH PLATE, subject lettered being a "*Reclining Chair for Paralytic and Helpless Patients,*" with a representation of a patient seated in it. Description is in the article on "*A New Form of Reclining Chair,*" &c., by Dr. BUCKNILL	I.	200
38.	An 8vo. page LITHOGRAPH PLATE, printed with the text, subject lettered, "*Ground Plan of the Roman Bath in the Sussex Lunatic Asylum.*" Initial references and description are in the article, which is a Review of ERASMUS WILSON'S (F.R.C.S.) "*Turkish Bath, &c.,*" by Dr. C. LOCKHART ROBERTSON	VII.	219

No. of Journal.		Vol.	Page.
55.	An 8vo. page LITHOGRAPH PLATE, containing four figures, subject fully lettered, being designs of "*Bedsteads*," with '*cane*' and '*canvas flaps.*'" Exhibited and described by Dr. DAVEY, at the Annual Meeting of the Association. (See account of the "*Proceedings.*")	XI.	423

STATISTICAL TABLES OF AND FOR ASYLUMS.

28.	A 4to. TYPE PRINTED page, folded, subject lettered being "*Statistical Tables*," &c.. 1857 and 1858, accompanies "*Report of Lunatic Asylums*," by J. C. B[UCKNILL, M.D.]	V.	218
36.	Three folio page TYPE PRINTED FORMS, folded, subject lettered being "*Asylum Medical Statistics. Table I.*"—Initialed (a) "History of Admissions," (b) "History of Discharges," (c) "Obituary." Size 8½in. × 13in. (*see following*) ...	VII.	199
36.	A folio page TYPE PRINTED FORM, folded, subject lettered being "*Asylum Financial Statistics.*" *Table I.* Size 8½in. × 13in. (*see following*)	VII.	204
36.	A 4to. page TYPE PRINTED TABLE, folded, subject lettered being "Mr. BUSHFIELD'S *Statistics of Asylums for* 1859." Size 8½in. × 10in. Description and other TABLES are in the article on "*Suggestions towards an Uniform System of Asylum Statistics*," by C. LOCKHART ROBERTSON, M.B. (See pages 195 to 211.)		
44.	A folio page TYPE PRINTED TABLE, folded, subject lettered being "*General Statistics of Asylums for the Insane*—AUSTRIA," by BARON MUNDY, M.D., *of Moravia.* Size 11in. × 17in.	VIII.	620

Although similar TABLES are stated to be prepared, yet *Austria* is the only one issued in the JOURNAL.

MATTER NOT INCLUDED IN THE GENERAL PAGINATION OF THE VOLUMES.—*APPENDICES.*

31.	A type printed ADDITION, subject lettered, being "*Appendix. Inquisition in Lunacy*," in regard to the "*Sanity*" of Miss PHŒBE EWINGS. As it is separately paged in Roman numerals I. to LVIII., it may be placed at the end of Volume VI., although at page 100 it is referred to in "*Note—The following report, &c.*"	VI.	
40.	A type printed *leaf* on one side, unpaged, subject lettered being "*The Death of the Prince Consort*," issued January, 1862	VII.	[609]
50.	A type printed ADDITION, subject lettered at page 1 being "*Appendix to No.* 50 *of the Journal, &c.*" and at page 3 (*Title page*) "*A Catechism . . . of a Radical Reform in the Treatment of Insanity by the author of the 'Gheel Question,'*" 1864. As it is separately paged in Arabic numerals 1 to 21, it may be placed at the end. This "*Catechism*" should be added to the "General Index to the first Twenty-four Volumes."	X.
